Professional Summary

B.Tech CSE student skilled in Java, Python, data analysis, and web development, combining strong problem-solving and leadership abilities with an adaptable, team-oriented mindset to build impactful tech solutions.

Education

B.Tech in Computer Science and Engineering, UPES, Dehradun | CGPA: 8.3/10

12th, CISCE, Cambrian Hall, Dehradun | Percentage: 84.60%

10th, CISCE, Cambrian Hall, Dehradun | Percentage: 81.50%

Jul 2023 – Till date

Apr 2021 – Mar 2022

Apr 2019 – Mar 2020

Technical Skills

Programming languages: C, Python, Java

Tools: PowerBI, Tableau, MySQL, Git, Canva

Platforms: Linux, Github, Jupyter Notebook

Internships

• Tree Multisoft Services – June 2025

Duration: 8 weeks

Responsibilities:

- Executed SEO strategies and built 90+ high-quality backlinks.
- Improved search visibility and keyword rankings for 3+ client websites.

• HIM Foundation – June 2024

Duration: 8 weeks

Responsibilities:

- Contributed to community-focused projects like Celebration Zone and Stationery Bank.
- Led plantation drives and initiatives promoting environmental awareness.

Projects

• Student Performance Analyzer

Tech Stack: R, ML algorithms

Skills Learnt: Data Preprocessing, Feature Engineering, Machine Learning, Data Analysis

Description: Built an R-based application to predict student pass/fail outcomes and final grades using machine learning models, enabling data-driven academic performance analysis.

Contribution:

- Implemented ML models (classification & regression) to predict student performance and grades
- Performed data preprocessing and feature engineering to improve model reliability
- Analysed key factors influencing student outcomes for data-driven insights

• Inventory Management System

Tech Stack: Java, NetBeans, MySQL

Skills Learnt: Object-Oriented Programming, Database Management, GUI Development

Description: Developed a Java-based desktop application to streamline inventory management with efficient data handling and user authentication.

Contribution:

- Developed a desktop application with CRUD operations for efficient inventory management.
- Integrated MySQL database for structured data storage and retrieval.
- Designed user-friendly interface with secure authentication

Accomplishments and Recognition

- Finalist, Internal Smart India Hackathon (SIH) 2025 — Ranked in the Top 5 out of 330+ teams.
- Group Lead, Samarth Summer Internship (2025) — Managed team collaboration and drove successful completion of assigned projects.
- Group Lead, Social Srijan Internship (2024) — Led a team, coordinating tasks and ensuring timely project execution.
- Participated in Drone Technology Bootcamp 2024, organized by NIT Kurukshetra.
